Environmental Policy Statement

Statement of Intent

At Saudi Motorsport Company (SMC), we strive for excellence in all aspects of our operations and are committed to minimizing our environmental impact in line with Saudi Arabia's environmental regulations, sustainability initiatives, and Vision 2030 objectives.

This Environmental Policy covers all activities of Saudi Motorsport Company, including activities at the Jeddah Corniche Circuit, as well as those occurring elsewhere, such as the WRC Rally Saudi Arabia.

In alignment with our organizational purpose and operational context, we commit to:

- **Responsible Environmental Management:** Implementing environmental management practices that reflect the nature, scale, and potential impact of our activities, products, and services.
- **Environmental Objectives:** Establishing a structured framework for setting, monitoring, and achieving measurable environmental objectives.
- **Environmental Protection:** Preventing pollution, conserving natural resources, and proactively addressing other environmental concerns relevant to our operations.
- **Compliance:** Complying with all applicable environmental laws, regulations, and industry standards.
- **Continual Improvement:** Continuously improving our environmental performance by integrating best practices and adopting practical solutions that reduce our environmental impact across our business activities.

To support these commitments, we will:

- **Preserve Resources:** Implement energy-efficient technologies, optimize water usage, and promote waste reduction and recycling initiatives throughout our event operations.
- **Prevent Pollution:** Adopt documented waste management procedures, minimize emissions, and enforce environmentally responsible practices in track maintenance, vehicle operations, and event logistics.

This Environmental Policy is accessible to all employees via our SharePoint platform and is publicly available on the SMC website.
